

**Hi folks!**

**We've been listening to your feedback and have been able to make some changes that were suggested to us. We're also working on some additional improvements for future releases so there will still be more changes coming.**

**Thank you for all of your feedback and your support in helping us to continue to make The Sims™ 2 Store the best experience possible we can for our users. Please keep the feedback coming!**

**Thanks,  
The Sims™ 2 Store Team**

**The Sims™ 2 Store Website Updates (7/16/08):**

- **Added icons so you can see which EP/SP an item came from instead of having to click on the Learn More layer to find the info.**
- **Clicking on the image of an icon brings up the Learn More layer.**
- **In the My Account area, there is a new filter so users can identify which packs they own and see them on pages.**
